

Meaningful Inclusion of Students with Significant Support Needs & Complex Communication Needs

**Brenda Del Monte, MS, CCC-SLP
& Michelle Bishop,**

This Professional Learning Circle, facilitated by the Special Education Technology Center (SETC), brings together educators and related service providers committed to creating inclusive, affirming, and accessible learning experiences for students with significant support needs and complex communication needs (CCN). Through collaborative learning, reflection, and real-world application, participants will explore practical strategies, challenge deficit-based thinking, and co-create tools that elevate student voice and foster meaningful participation in general education settings.

ASHA CEUs Available!
